

A Message To Our Prospective Suppliers

The Resource Group is founded on a promise of service excellence to everyone with whom we interact, including our participants, caregivers, associates, and suppliers. Integral to living out this promise is our commitment to building a high-performance culture of individuals who are inspired by the mission of engaging with minority-, veteran-, or woman-owned business enterprises and small businesses as product and service providers for our participants, including acute care, non-acute care, higher education, and industry organizations.

Establishing business partnerships with diverse suppliers to provide products and services is not only part of our mission and a strategic business practice, it is also a socially responsible action we can take to support the participants and communities we serve.

We want to thank you in advance for showing interest in The Resource Group and look forward to learning more about your business offering.

About Us

The Resource Group operates the second largest and most efficient resource and supply management organization in healthcare delivery by focusing on effective change management and the caregiver experience. Our User-Directed Integrated Solutions deliver industry-leading savings, operational efficiencies, and caregiver to healthcare providers through approaches to change satisfaction innovative management, operations and logistics, sourcing and contracting, analytics, and continuous process improvement, all to support the efficient and effective delivery of care to patients. This process starts by listening to the caregiver to determine the necessary attributes of a product or service, contracting to meet these attributes with the best value, and continuously implementing to achieve and sustain value. The Resource Group's customers, known as "participants," achieve maximum savings as all decisions are made based upon listening to and respecting the voice of the caregiver. This approach has resulted in a contract portfolio that covers 90% of our participants' supply, construction, capital, and purchased service needs. Through its solutions, The Resource Group has delivered more than \$1.2 billion in annual expense reduction to its participant locations across the nation.
